RUST REMOVER SPRAY

■ DESCRIPTION

Rust remover is a special formula designed to dissolve rust/corrosion on metal surfaces, freeing stuck parts, cleaning grime, and restoring items like tools, automotive parts, or machinery to near-new condition, often leaving temporary protection and requiring application in steady, light coats.

■ KEY FEATURES

- Penetrates & Loosens: Effectively gets into tight spots to break down rust and seized components.
 - Convenient Application: Allow for easy, precise spraying on various surfaces.
 - Versatile: Works on tools, auto parts, machinery, hinges, locks, and more.
 - Restores Surfaces: Transforms rusty items, eliminating the need for harsh scrubbing.
 - Protects: Offer temporary corrosion protection after rust removal.
-

■ APPLICATION INSTRUCTIONS

- Shake the can well.
 - Apply in light, overlapping strokes from 25-40cm away.
 - Allow sufficient drying/penetration time (hours or overnight for heavy rust).
-

WARNING

Although the technical details and recommendations contained in this product data sheet are based on the best of our knowledge and experience, all the above information must be considered as indicative only.

Users must ensure, through prior testing, and it is suitable for the intended application and site conditions. In every case, the user alone is fully responsible for any consequences deriving from the use of the product.

LEGAL NOTICE

- The contents of this Technical Data Sheet (TDS) may be copied into another project-related document; however, the resulting document shall not supplement or replace the requirements of the TDS in force at the time of application.
 - The most up-to-date TDS can be requested from Masters Touch Global Inc. or downloaded from the official website.
