TIRE SHINE

■ DESCRIPTION

Master's Touch Cream tire shine is a silicon thick, lotion-like product used to restore the black appearance of tires and give them a clean, shiny finish. Unlike sprays or gels, cream tire shines are applied by an applicator or brush, allowing for precise coverage and less overspray. Its degreasing the attached of dust by 90% which making it the best solution in GCC countries weather.

■ KEY FEATURES

- Enhances appearance by making tires look deep black and glossy.
 - Protects rubber from cracking, fading, and drying caused by UV rays, ozone, and weather.
 - Water-resistant formulas help maintain shine even after rain or washes.
 - Long-lasting effect as its silicon based.
 - Dust-resistant options help keep tires cleaner longer.
-

■ APPLICATION INSTRUCTIONS

- **Clean the Tires:** wash the tires thoroughly to remove dirt, grime, and old dressing residue.
 - **Applying:** Apply using a foam applicator pad or brush, making sure to cover the entire sidewall evenly.
-
